

IWMF Publications

IWMF volunteers, along with volunteers from the IWMF Affiliates, and WM researchers develop publications including Booklets, Treatment Guides and Fact Sheets to provide the newly diagnosed and veteran patients, as well as their caregivers, up-to-date information about Waldenstrom's macroglobulinemia and how to treat it. The IWMF does not warranty the content of these publications. We are making these available to you as information, and we encourage you to discuss what may be appropriate to you with your hematologist/oncologist. The following publication(s) are available for download at www.iwmf.com/media-library/iwmf-publications in the checked  languages below.

Booklets

	English	Traditional Chinese 繁體中文	Simplified Chinese 简体中文	Deutsch	Espanol	Francais	Italiano	Portuguesa	Finnish Suomi
 <p>Basic Immunology <i>By Guy Sherwood, M.D., 2014. Revised by Linda Nelson, 2018.</i> A comprehensive review of immunology and genetics as it relates to WM.</p>									
 <p>Frequently Asked Questions <i>By Peter DeNardis, Marcia Klepec, Elena Malunis & Linda Nelson, 2017. Revised 2019.</i> This booklet answers frequently asked questions about WM in a very readable format for those who may not have a strong background in biology.</p>									
 <p>Glossary and Abbreviations <i>Written & compiled by Guy Sherwood, M.D., Bret Blakeslee, Sue Herms, & Peter DeNardis, 2015.</i> This glossary is designed to help patients with WM learn and understand pertinent medical terms that relate to our disease.</p>									
 <p>Medical Tests <i>By Guy Sherwood, M.D., 2007. Revised by Sue Herms and Linda Nelson, 2016.</i> A reference booklet of medical terms and tests, this revision places particular emphasis on expanding the explanation of the Complete Blood Count and on Immunoglobulins. Tests for beta-2 microglobulin and light chains have been added, as has genetics testing.</p>									
 <p>Questions and Answers <i>By Guy Sherwood and Sue Herms, revised 2010, 2014. Revised by Sue Herms and Linda Nelson, 2017.</i> Designed to provide detailed answers about Waldenstrom's macroglobulinemia, including a full glossary of terms.</p>
